Spare eyewash bottle, filled, 500ml	1	<b>9.733 793</b>

**4**

#### 4 QuickFix plaster dispenser

Pull and you immediately have a plaster ready for use. Each plaster is individually packed. This provides great hygienic safety. Ready for use at critical workplaces.

*Breuell Ingenieurbüro*

The plasters are made of protective, low-allergenic, PE material that allows the skin to breathe and are especially suitable for damp workplaces.

The QuickFix dispenser is only 23cm wide and 13.5cm height. It contains 90 plasters in spite of its modest size so it can be installed precisely in those places where the need is greatest.

Description	PK	Cat. No.
QuickFix plaster dispenser including two water-resistant plaster refills	1	<b>9.733 808</b>
QuickFix water resistant plaster refill containing 45 plasters	1	<b>9.733 809</b>

#### 1 Extraset plasters refill

The most commonly occurring injuries are to the fingers and hands. The proportion of plasters in the average industrial first aid box is only limited. The Extraset plasters refill was created for precisely this reason and contains 116 plasters in high-grade, non-allergenic material in several formats and sizes.

Type	PK	Cat. No.
Extraset plasters refill	1	9.264 165

#### Plaster Dispenser aluderm®-aluplast

- Manufactured from highly tensile ABS
- Size 160 x 122 x 57mm
- With wall mounting
- Filled with five varieties of aluminium vaporised aluderm®-aluplast plasters.

Sizes: 30 Strips 72 x 25mm, 30 Strips 72 x 19mm, 25 fingertip plasters, 20 finger dressings 120 x 20mm and 10 finger joint boards.

Each plaster variety is stored independently in its own compartment and gives a clear product overview for the user.
